

ABOUT US

MSA Bollards is an Australian owned designer, manufacturer and installer of an extensive range of fixed, removable, retractable, pivoted, electric light and custom-made bollards.

The business commenced in 1990 trading as Okal Sentry Bollards (Aus) – a leading bollard manufacturer for over 30 years.

MSA Bollards has acquired the sole rights to the Okal Sentry product range throughout Australia and New Zealand.

OUR COMMITMENT

MSA Bollards maintains its commitment to using quality Australian steel and other locally sourced components to ensure we manufacture a consistently high-quality product.

PRODUCT DESCRIPTION

Bike rails are individual rails shaped in a 'u' or 'o' shape that bikes can be securely locked to. Due to their durable and fixed nature, whether surface-mount or in-ground, once a bike is properly locked to the rail it cannot be easily removed. Our bike rails are perfect for residential, commercial, or public settings such as parking lots or bike storage areas. They provide a convenient and efficient way to store bikes, ensuring they are kept upright and secure.

FEATURES & BENEFITS

Each bike rail can accommodate 2 bikes at a time. 1 locked to either side of the rail. While they may be powder-coated and/or galvanised steel, stainless steel is most popular due to imperfections, from use and weather, showing less.

DESIGNED FOR

- Businesses, councils, and schools that want to be health conscious and provide accommodation for a range of transport options.
- Securely locking bicycles and scooters

OUR PRODUCTS

MSA Bollards manufacture a wide range of fixed, removable, retractable, pivoted, architectural, electric and light bollards.

Our bollards can be supplied galvanised, powder coated or in a polished stainless steel finish to suit your needs.

We have trained installers who can install these bollards in-ground or surface mounted as required.

Non-fixed bollards can be supplied with various security locking systems.

OUR PROMISE

At MSA Bollards we build our products to last.

Our professional team offers service and repairs on all our products as needed in any circumstance such as incurred damage or just general 'wear and tear' maintenance.
