

ABOUT US

MSA Bollards is an Australian owned designer, manufacturer and installer of an extensive range of fixed, removable, retractable, pivoted, electric light and custom-made bollards.

The business commenced in 1990 trading as Okal Sentry Bollards (Aus) – a leading bollard manufacturer for over 30 years.

MSA Bollards has acquired the sole rights to the Okal Sentry product range throughout Australia and New Zealand.

OUR COMMITMENT

MSA Bollards maintains its commitment to using quality Australian steel and other locally sourced components to ensure we manufacture a consistently high-quality product.

PRODUCT DESCRIPTION

Our Sentry MK3 retractable bollards are upgraded from MK2. If your area requires a mixture of pedestrian and vehicle access, and you want to reduce the risk of OHS injuries from moving removable bollards, then this is the bollard for you. These are assisted-lift bollards using a gas-strut to make raising and lowering the bollard a breeze. You can also customise with a T-bar handle and a range of locks to suit your needs & budget.

FEATURES & BENEFITS

MK3 retractable bollards allow you to control the access and security of your business. We offer a range of finishes and extras to make bollards to suit your aesthetic and situation. Higher security locks such as Bi-lock, Abloy and Evva can be fitted if required. Our MK3 bollards provide convenient self-storage for your bollard when not in use, no more carrying a bollard to store it!

DESIGNED FOR

- Loading zones, driveways, and car parks,
- Restricting and protecting door access.
- Allowing emergency vehicle access to a pedestrian area.
- Assisted lift & lower - Bollard should not be allowed to free fall as damage to user and/or bollard may result.

OUR PRODUCTS

MSA Bollards manufacture a wide range of fixed, removable, retractable, pivoted, architectural, electric and light bollards.

Our bollards can be supplied galvanised, powder coated or in a polished stainless steel finish to suit your needs.

We have trained installers who can install these bollards in-ground or surface mounted as required.

Non-fixed bollards can be supplied with various security locking systems.

OUR PROMISE

At MSA Bollards we build our products to last.

Our professional team offers service and repairs on all our products as needed in any circumstance such as incurred damage or just general 'wear and tear' maintenance.
