

ABOUT US

MSA Bollards is an Australian owned designer, manufacturer and installer of an extensive range of fixed, removable, retractable, pivoted, electric light and custom-made bollards.

The business commenced in 1990 trading as Okal Sentry Bollards (Aus) – a leading bollard manufacturer for over 30 years.

MSA Bollards has acquired the sole rights to the Okal Sentry product range throughout Australia and New Zealand.

OUR COMMITMENT

MSA Bollards maintains its commitment to using quality Australian steel and other locally sourced components to ensure we manufacture a consistently high-quality product.

PRODUCT DESCRIPTION

Sentry Padlock Removable Bollards provide protection from criminal activity when inserted and locked, but can be removed with the cover sitting flush with the ground surface during low risk hours. This bollard is perfect to allow restricted pedestrian and vehicular access. With this design a section of the bollard is locked through the cover with a padlock. This makes it easy to change the lock if needed and is great for those with a smaller budget.

FEATURES & BENEFITS

Padlock removable bollards are fantastic for the budget conscious customer that requires access restriction. This bollard type is particularly popular with car collectors and businesses. Placing the bollards just inside roller doors means vehicles can't gain momentum to damage or move the protection, while there is also no added attention alerting potential thieves to valuables on the premises.

DESIGNED FOR

- Protecting a thoroughfare from unauthorised access
- Choosing when you want to protect/restrict an area
- When site restrictions or budget prevents the use of retractable bollards

OUR PRODUCTS

MSA Bollards manufacture a wide range of fixed, removable, retractable, pivoted, architectural, electric and light bollards.

Our bollards can be supplied galvanised, powder coated or in a polished stainless steel finish to suit your needs.

We have trained installers who can install these bollards in-ground or surface mounted as required.

Non-fixed bollards can be supplied with various security locking systems.

OUR PROMISE

At MSA Bollards we build our products to last.

Our professional team offers service and repairs on all our products as needed in any circumstance such as incurred damage or just general 'wear and tear' maintenance.
