

ABOUT US

MSA Bollards is an Australian owned designer, manufacturer and installer of an extensive range of fixed, removable, retractable, pivoted, electric light and custom-made bollards.

The business commenced in 1990 trading as Okal Sentry Bollards (Aus) – a leading bollard manufacturer for over 30 years.

MSA Bollards has acquired the sole rights to the Okal Sentry product range throughout Australia and New Zealand.

OUR COMMITMENT

MSA Bollards maintains its commitment to using quality Australian steel and other locally sourced components to ensure we manufacture a consistently high-quality product.

MSA BOLLARDS

13 Dorset St

**PRODUCT DESCRIPTION**

Put an end to parking bay poaching. Pivot bollards can be used as security to lock cars in or to reserve parking spots for authorised access only. The Okal Sentry Parking Pivot Bollard is the secret to orderly tenant or staff parking. It is constructed from tough square steel. There are two heights available, 735mm or 1000mm high, when locked in the upright position. In the unlocked position they are only 90mm allowing vehicles to easily drive over them.

FEATURES & BENEFITS

Its internal locking system cannot be tampered with. Individually keyed as standard. Keyed alike, high security Bi-lock, Abloy or Evva locks are optional.

Easy to operate and strong enough to deter unwanted vehicles parking in your spot.

DESIGNED FOR

- Car parks in hospitals, universities, medical centres, apartment complexes, shopping centres
- Residential, commercial, & industrial settings
- Minimal damage to asphalt

OUR PRODUCTS

MSA Bollards manufacture a wide range of fixed, removable, retractable, pivoted, architectural, electric and light bollards.

Our bollards can be supplied galvanised, powder coated or in a polished stainless steel finish to suit your needs.

We have trained installers who can install these bollards in-ground or surface mounted as required.

Non-fixed bollards can be supplied with various security locking systems.

OUR PROMISE

At MSA Bollards we build our products to last.

Our professional team offers service and repairs on all our products as needed in any circumstance such as incurred damage or just general 'wear and tear' maintenance.
