

Sentry SPU Retractable Bollard

ABOUT US

MSA Bollards is an Australian owned designer, manufacturer and installer of an extensive range of fixed, removable, retractable, pivoted, electric light and custom-made bollards.

The business commenced in 1990 trading as Okal Sentry Bollards (Aus) – a leading bollard manufacturer for over 30 years.

MSA Bollards has acquired the sole rights to the Okal Sentry product range throughout Australia and New Zealand.

OUR COMMITMENT

MSA Bollards maintains its commitment to using quality Australian steel and other locally sourced components to ensure we manufacture a consistently high-quality product.

PRODUCT DESCRIPTION

Introducing our Sentry SPU Retractable Bollard – the perfect solution for controlled access and vehicle security. First sold in the 90s by Okal Security, the SPU Retractable Bollard is now solely available from MSA Bollards (who acquired Okal in 2010). Continuing to be a best seller, this highly durable and reliable bollard is designed to provide the utmost safety and convenience for a wide range of applications.

FEATURES & BENEFITS

One of the key features of our SPU Retractable Bollard is its easy-to-use manual operation. With our proprietary clutch lift key, the bollard can be lowered or raised to control vehicle access in seconds. The compact design of the bollard allows for efficient space utilisation, making it ideal for urban environments and areas with limited space.

DESIGNED FOR

Withstanding the harshest environmental conditions, ensuring long-lasting performance.

Unrivalled resistance against unauthorised vehicle intrusion and protecting pedestrian areas, walkways, entrances, parking areas, and more.

OUR PRODUCTS

MSA Bollards manufacture a wide range of fixed, removable, retractable, pivoted, architectural, electric and light bollards.

Our bollards can be supplied galvanised, powder coated or in a polished stainless steel finish to suit your needs.

We have trained installers who can install these bollards in-ground or surface mounted as required.

Non-fixed bollards can be supplied with various security locking systems.

OUR PROMISE

At MSA Bollards we build our products to last.

Our professional team offers service and repairs on all our products as needed in any circumstance such as incurred damage or just general 'wear and tear' maintenance.
